

Control 
Everyday Easy™

Welcome to the Smart Home

Control4 makes Everyday Easy.™ We give you simple, practical control of your music, movies, lights, temperature and security system from anywhere in your home or anywhere in the world.

Our wired and wireless, easy-to-use products make your home your favorite place to be by bringing a new level of effortless entertainment, peace of mind, and comfort and convenience to you and your family. Control4 is *the* platform for the digital home.

Automation used to be an expensive, new-home-only, complicated proposition. Control4 has changed all that.

Affordable – Control4 brings you the benefits of a practical, reliable home-automation system at a price that fits into your budget. Our scalable design also means that it's not an all-or-nothing solution — you can start with a basic system and upgrade over time with solutions that fit your needs and budget.

Easy to Install – Control4 products are designed to be easily installed in both new and existing homes. Wireless or wired technology means that you don't need to tear open walls and remodel your entire home to install a Control4 system. Complete Control4 systems can be installed and programmed in a matter of hours saving you time and money.

Easy to Use – Control4 makes your life Everyday Easy™ by taking all of the technology in your home and simplifying it. Everything works better when it works together. Control4 lets you easily manage lighting, security, music and entertainment without the need for a confusing array of remotes or in-depth training.

"The automated life used to be the exclusive realm of the rich. Now home automation is coming to a subdivision near you."

— WIRED

"After I had the chance to put [Control4] through its paces—including the brutal wife-and-family test—I was overwhelmed by the exhilarating yet strangely calming feeling that this is the way things ought to be."

— Home Theater

"If someday the average American home includes complete automation, Control4 may be the company most responsible."

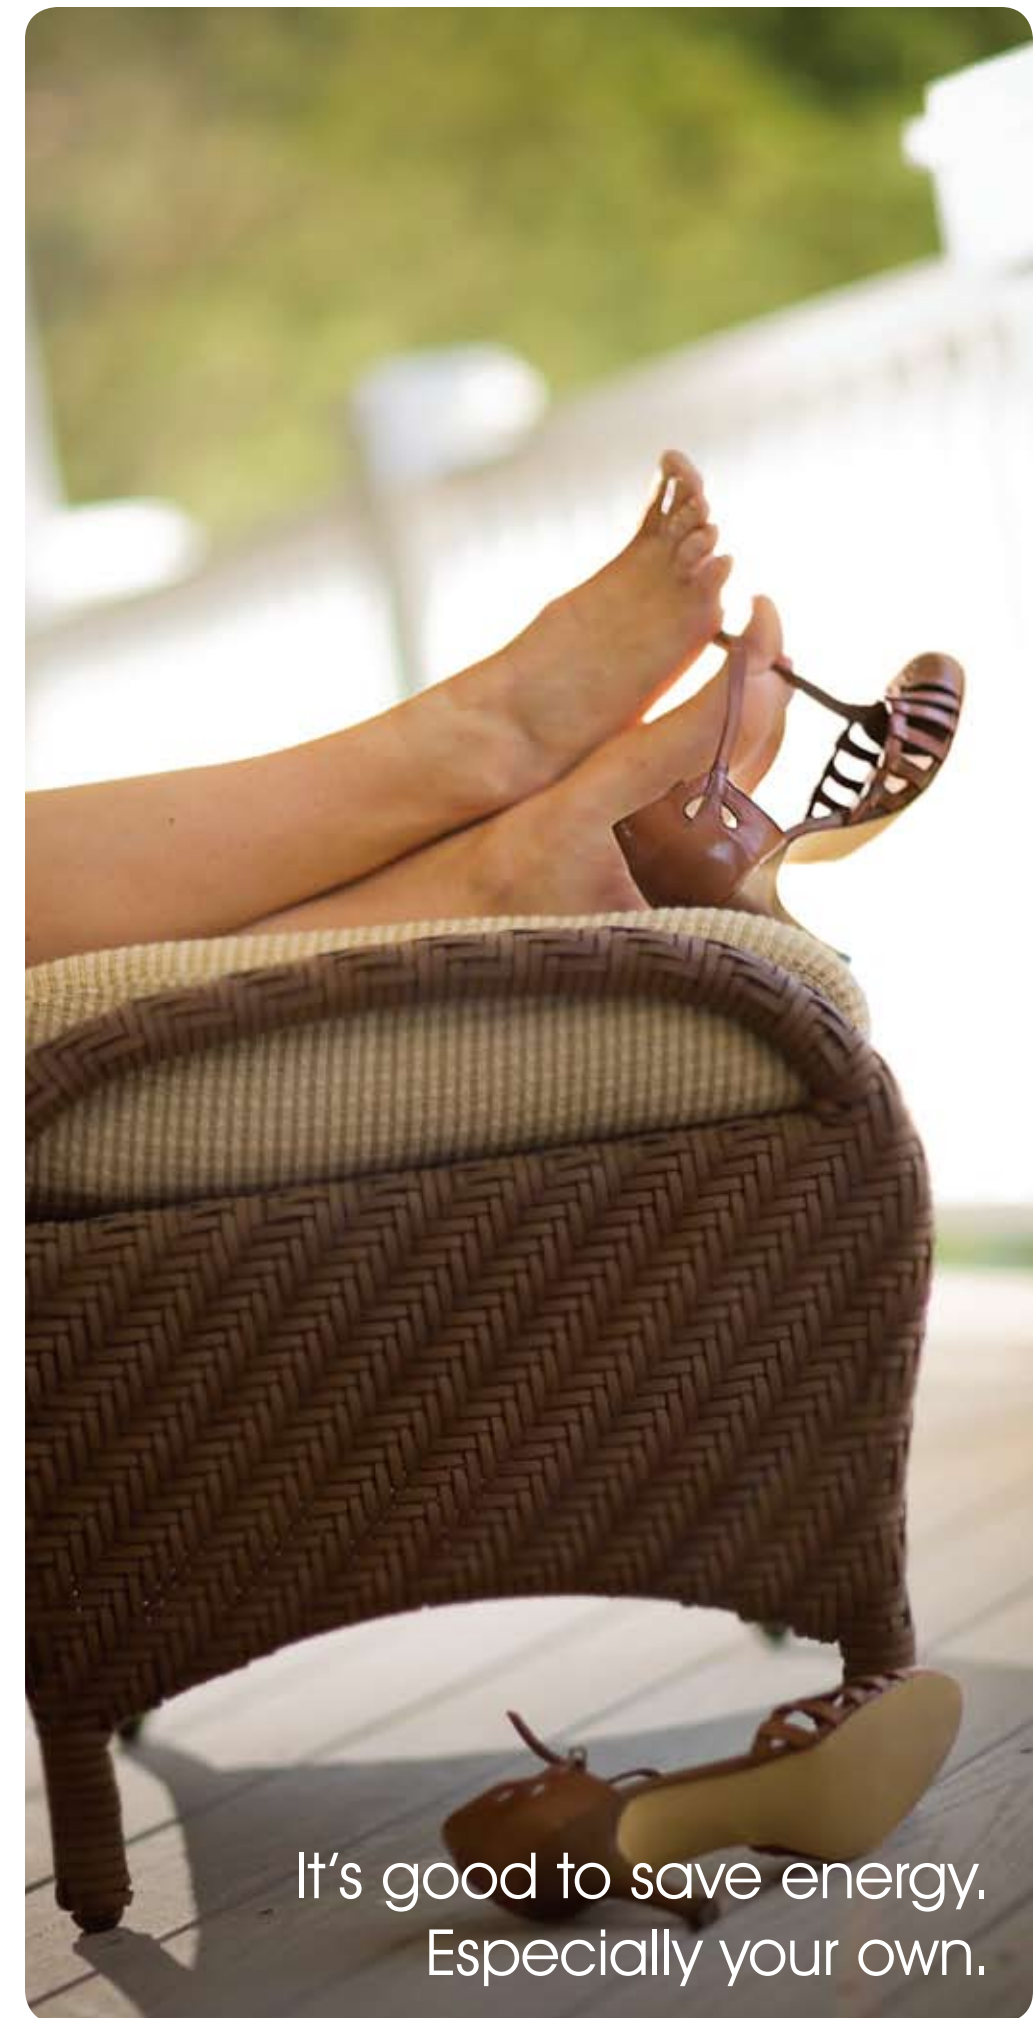

— Robb Report: Home Entertainment

"Control4 delivers what it promised: an easy-to-use system... bringing complete home-automation control to people who previously could not afford it."

— Digital TV & Sound

"...their [Control4] system will become the Model T of home automation...that takes the industry to a whole new level."

— CNN/Money

It's good to save energy.
Especially your own.

Make your home the hangout for family and friends. Control4 Home Theater and Multi-Room Music systems make your house the most entertaining place around.

- Use your Control4 System Remote to start a movie, dim the lights and adjust the temperature for a true movie theater experience in your own home.
- Access your music and videos from any room in your home, anytime.
- Make your home-theater system easy enough for a child to use with one simple remote to control all your AV gear.
- No more searching through CD cases to find the music you want to hear. Create the perfect mood by playing your favorite playlist throughout the entire house for your whole family to enjoy.
- Classical in the den, Blues in the kitchen, and Rap in the teen's room - all at the same time. Use your Control4 touch screen or remote control to play music from multiple sources, including your MP3 player, external hard drive or computer. And with Rhapsody's music service*, subscribers can have access to over 4.5 million songs in any or all rooms anytime.

Rest easy knowing your home and family are safe and secure at all times.

- Control4's 4Sight Internet Services can send you email alerts or a text message to let you know when your kids get home from school, if the garage door is left open during the day, or if a water leak is detected in the basement.
- Check on your home from anywhere in the world with Control4's 4Sight Internet Services - adjust temperature, monitor cameras, turn the lights on and off, and more.
- While you're on vacation you can make it look like you're home by having your home automatically turn on the kitchen lights during dinner time and the porch lights at sunset.

Make your home comfortable and green by conveniently adjusting your lights and temperature from anywhere.

- How would it be to wake up to the perfect temperature with your lights gradually turning on while your favorite music plays over your bedroom speakers. With Control4, you'll always get up on the right side of the bed.
- Put your home to bed with the touch of a button. The Control4 system can automatically adjust your temperature to its nighttime setting, turn off all the lights and arm your security system.
- Save money on your utilities by setting your lights to turn off automatically when a room is unoccupied for a certain amount of time.

Effortless Entertainment,
Peace of Mind and
Comfort and Convenience

Start Small, Upgrade Over Time

Controllers

Controllers are at the core of every Control4 system. They enable you to control and automate virtually any home function, including your home theater, music, lighting, temperature, and more. All versions give you powerful control over your entire home and enable you to build your system over time.

One-Touch Home Theater

Simplify the control of everyday audio, video, and home theater components, eliminating the need for multiple remotes.

- **System Remote Control** – control all of your home theater components or use the integrated display to browse music and movies, adjust the temperature, turn off the lights and more.
- **On-Screen Navigator** – turns your television into an elegant interface that can be used to access and control your entire home.

Multi-Room Music

Enjoy your digital music collection throughout your entire home.

- **Speaker Point** – send music wirelessly to any room in your house.
- **Amplifiers** – distribute amplified music to different zones throughout your home.
- **Multi-Tuner with XM Radio** – unleash the latest in radio technology throughout your home.

Smart Lighting

Control all the lights in your home with the touch of a button or using a Control4 touch screen, keypad, or System Remote Control.

- **Wireless Dimmers and Switches** – smart lighting throughout your entire house.
- **Wireless Outlet Dimmers and Switches** – power sensing modules that make household plug-in devices part of your Control4 system.

Advanced Temperature Control

Simple, convenient control over the comfort of your home from anywhere in your home.

- **Wireless Thermostat** – convenient control over the temperature in your home from any Control4 touch screen, keypad or remote.

Safety and Security

Control4 integrates with your existing security system and provides you with a variety of options to monitor the security of your home.

- **4Sight Service** – Log in to the my.Control4.com website to monitor and control your home from any internet connection in the world.
- **3rd Party Integration** – Control4 integrates with a variety of home security systems. This means you can use any Control4 interface to control and monitor your security system.

Why a Smart Home is a Smart Idea

Control4 combines high tech solutions with ease of use for positive environmental impact. By giving you control of your home, we make it easy to conserve precious resources like energy, water, and time.

Now your lights can go on and off based on time of day. The Control4 system is even smart enough to know if there's anyone in the room or anyone in the home and manage energy consumption for you.

How much can you help the environment with a Control4 system?

Use dimmers, timers and occupancy sensors to reduce energy waste. In a typical 3-bedroom home, a Control4 family could save is over 850 pounds of CO₂ emissions each year. That's the equivalent of not driving a car for a month. And that's just the beginning.

Further savings can be realized by controlling the amount of wattage used by light bulbs and installing dimming devices which conserves electricity, saves energy costs, and extends the life of light bulbs.

Dimming the light this much	Saves this much electricity	Extends bulb life
10%	10%	2 times longer
25%	20%	4 times longer
50%	40%	20 times longer
75%	60%	More than 20 times longer

Perfect for Any Home – New or Old

The idea of having a home-control system to manage all of your home's electronic gear has long seemed out of reach. Often considered too expensive or too difficult to install after a home was built, homeowners can now enjoy the convenience and control of a home automation system, thanks to Control4.

Ideal for homes new or old, small or large, installations can be completed in a matter of hours or days, not weeks or months. And Control4 is a modular solution so you can start with a basic system and plans to upgrade in the future, or install a system with all the bells and whistles you can dream up.

Control4 is designed to integrate easily with most standard systems and protocols making our products robust, dependable and incredibly easy to install. Control4 offers all the benefits of a practical, reliable home-automation solution at a fraction of the cost of most systems.

Standards-based

- Leverages standard wiring already available in light switches and thermostats.
- Uses standard Ethernet cabling.
- Operates over standard wireless protocols including 802.11 and 802.15.4.

Ideal Solution for Retrofit

- Existing homes are perfect for Control4 installations – no need to rip down walls thanks to our standards-based, wireless/wired install capabilities.
- Control4 solutions have been successfully installed in homes from one to 100 years old!

Integrate in New Construction

- New homes can be built with basic systems and easily expanded to fit future needs.
- Home theater, multi-room music, smart lighting and security system integration can be spec'd before construction.

Control4 is the Clear Choice for Retrofit Projects

"People...can now enjoy the convenience and security of technologies that were previously out of their price range and until now would have required extensive rewiring of their house."

— Advanced Home

Controllers, Multi-Room Music and Speakers

Controllers

The brain of the smart home, Control4 has the right one for every project.

Home Controller HC-200

An affordable and versatile controller, ideal for providing in-room control and on-screen navigation for every display in the home.

- Universal mounting bracket
- Extremely small form factor allows placement behind flat panel displays

Home Controller HC-300

With increased performance capabilities, the HC-300 makes whole-home automation simple.

- 720p HD on-screen TV interface
- Add digital music and photos with USB hard drive

Home Controller HC-500

Combines the power of our Home Controller HC-300 with an integrated hard drive and additional inputs/outputs.

- 720p HD on-screen TV interface
- Store digital music and photos on the internal 160GB hard drive

Home Controller HC-1000

Optimized to run as a high-performance dedicated primary controller for large media libraries.

- Half Terabyte internal hard drive
- Solid state boot drive

Multi-Room Music

Control4 offers multi-room music products that make it easy to listen to your entire music collection from anywhere in your home.

Dock for iPod

Seamlessly integrate your iPod into a Control4 system.

- Navigate, control, and distribute your iPod contents anywhere in your house
- Play all media files on your iPod, including music and videos

Multi Tuner

Experience the power of traditional radio and satellite-radio technology.

- Stream three stations simultaneously throughout your home
- Dual AM/FM tuners, optional XM Satellite Radio

Speaker Point

Digitally streams music throughout the home easily and affordably.

- 2-channel digital amplifier, 50 watts per channel
- WiFi and Ethernet versions

4 Zone Amplifier

State-of-the-art digital amplifier delivers high quality sound to any room.

- 4 stereo zones at 60W per channel at 8Ω
- 4 signal-sensing inputs, support analog stereo inputs, two can be digital coax
- Auto-power save mode, uses less than 2W of power when amp is not in use

Multi Channel Amplifier

State-of-the-art 8 zone digital amplifier/matrix switch delivers high-quality sound to any room in the home.

- Full equalization per channel
- 16-channel digital amplifier, 100 watts per channel
- 8 signal-sensing stereo analog audio inputs

Audio Matrix Switch

Brings your audio sources together for distribution throughout your home.

- Automatic detection of audio signals
- 16 input sources to 16 output zones

Speakers

A perfect compliment to Control4's multi-room music products, Control4 in-ceiling and in-wall speakers offer a great solution for surround sound and multi-room music.

5.25", 6" and 8" In-ceiling

These speakers make it possible to have spectacular sound in any room in your home.

- Polymer cones and advanced computer optimized crossovers
- Simple rotating clamp mounting

6" and 8" In-wall

These speakers make an excellent choice for the front-channel speakers in a high-performance home theater system.

- Polymer cones and advanced computer optimized crossovers
- Simple rotating clamp mounting

6" and 8" In-ceiling Stereo

These speakers are the perfect high quality, multi-purpose solutions for whole-house music where space is a major consideration.

- Polymer cones and advanced computer optimized crossovers
- Simple rotating clamp mounting

Interfaces

Control4 has a variety of interfaces that you can use to control your entire home. These can be used to play music, watch a movie, adjust the temperature, dim the lights, and more.

System Remote Controls

Included with every controller* these simple devices let you control everything in your home with the built-in display (SR-250 only) or through the on-screen TV interface.

- Wireless (RF) with bi-directional feedback
- Piezo speaker for "lost remote" paging capabilities
- Bright OLED display (SR-250 only) and backlit buttons
- Wake-on-motion sensor

LCD Keypad

Complete system control in an elegant, compact design.

- Ten-button configuration
- Wireless (ZigBee) and Ethernet versions
- In-wall and desktop versions

Available in white, black, and almond

Mini Touch Screen – Packs all the features of a full-sized touch panel into an elegant, compact four-inch touch screen.

- Rich color graphics
- WiFi and Ethernet versions
- In-wall and desktop versions

Available in white, black, and almond

7" Touch Screen

Control an entire home automation system with this elegant 7" touch screen.

- WiFi and Ethernet communication
- 4 customizable hard buttons

10.5" Touch Screen

Control an entire home automation system with this elegant 10.5" touch screen.

- Ethernet communication (In-wall only)
- WiFi communication (Portable only)
- Custom wood frames available (In-wall only)

In-wall available in white, black, and almond

Lighting

Control4 switches and other lighting products make it possible to control lighting from a local switch or a remote switch anywhere—without additional wiring.

Wireless Dimmer and Switch

Elegant and convenient lighting control from any touch screen, keypad or remote.

- Replace existing switches, no new wires required
- Custom screw-less faceplate
- Customizable LED lights
- Integrated air gap switch (Dimmer only)

Available in white, black, and almond

Wireless Outlet Dimmer and Outlet Switch

Connect to any household plug-in device, immediately making it part of the Control4 system.

- Dual outlets
- Small form factor
- Secure mounting
- Energy efficient
- Built-in dimmer capabilities (Outlet Dimmer only)
- Built-in power current sensing (Outlet Switch only)

Keypads

Control4 keypads offer smart, affordable solutions to give you a variety of personalized one-touch scenarios.

Wireless 2, 3 and 6 Button Keypads

- Scalable, low cost solution
- Unlimited programming options
- Customizable LED colors
- Customizable keycaps (3 and 6 button only)
- Use as a 3-way switch in a Control4 lighting scene

Available in white, black, and almond

Temperature

Advanced temperature control is a simple and affordable addition to a Control4 system.

Wireless Thermostat

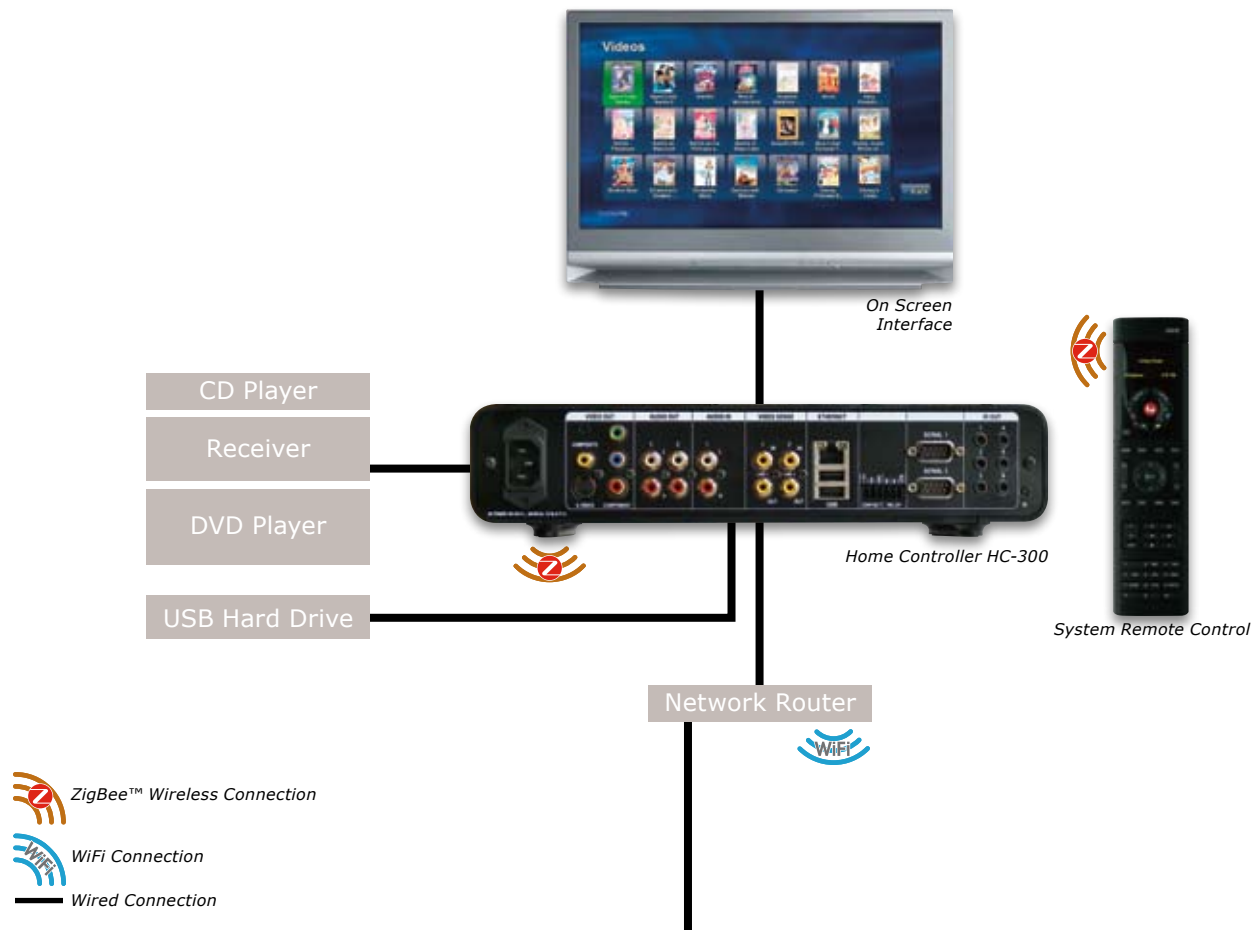

Easily adds advanced temperature control to any home.

- Bi-directional communication with all Control4 interfaces
- Stand-alone functionality
